INDEX TO VOLUME 45 OF MAYO CLINIC PROCEEDINGS

1970

Abdomen, acute: intussusception in children, 724; correction, 767
Abdominal mass: hydrocolpos; report of two cases, 505
Abortion; crime or privilege?, 510
Abortions and chromosomes, 60
Abstracts: 73, 242, 336, 405, 476, 550, 609, 684, 738
Acutely ill patient, advances in indicator dilution techniques applicable to studies of, 563
Adenocarcinoma: persistent jaundice, 150
Adrenal cortex: heparin-ascorbic acid antagonism, 140
Adrenocorticosteroids: evolution of steroids and their value in the control of rheumatic disease, 1
Agar: in vitro susceptibility of gram-negative bacilli to gentamicin, 146
Agar media, influence of, and in vitro susceptibility of staphylococci and streptococci, on minimum inhibitory concentration, 527
Air embolus: subclavian venipuncture; preventable complications, report of two cases, 712
Albert, A., 114
Amino acids: dihydroxyphenylalanine (dopa) in plasma during dopa treatment of patients with Parkinson's disease, 438
Amorim, D. deS., 275
Anaerobic bacteria, isolation of, from clinical specimens, 256
Andersen, H. A., 189
Anesthesia: aspiration pneumonitis, 347
Aneurysm, postinfarction ventricular, 13
Aneurysms, intracranial, and subarachnoid hemorrhage; subject review for the clinician, 455
Angina pectoris: chest pain worse with recumbency, 536
Angiography, use of Doppler ultrasonic flowmeter for, 720
Antismoking clinic: report of experience and comparison with published results, 189
Arnaud, C. D., 125
Arterial system: effects of nitroglycerin on capacitance vessels; mechanism for reduction of left ventricular end-diastolic pressure, 573
Arterial thrombosis, experimental: description of method, 388
Arterial thrombosis, experimental, effects of monoamine oxidase inhibitors, glyceryl guaiacolate, and ethanol on, 579
Arterial thrombosis, experimental, and platelet adhesiveness by 2,6-bis(diethanolamino)-4-piperidinopyrimido-[5,4-*d*]-pyrimidine (RA 233), prevention of, 695
Arterial thrombosis, inhibition of, and platelet adhesiveness in rat by intravenous 2,4,6-trimorpholinopyrimido-[5,4-d]-pyrimidine (RA 433), 51
Arteriovenous fistulas; review and ten-year experience at Mayo Clinic, 81
Arthritis, rheumatoid, and papilledema, 662
Ascorbic-heparin acid antagonism, 140
Aspiration pneumonitis, 347
Atherosclerosis: ileal bypass in treatment of hyperlipidemia; rationale and present status, 229
Atherosclerosis-susceptible-spontaneous White Carneau pigeon, experimental studies in; nature of biliary and fecal neutral steroids, 729
Autoimmune disease: Hashimoto's thyroiditis in Olmsted County, Minnesota, 1935 through 1967, 586
Autosomal trisomies: chromosomes and abortions, 60

Bacilli, gram-negative, in vitro susceptibility to gentamicin, 146
Bacteria: in vitro susceptibility of staphylococci and streptococci and influence of agar media on minimum inhibitory concentration, 527
Bacteria, isolation of anaerobic, from clinical specimens, 256
Bacterial endocarditis: rheumatoid arthritis and papilledema, 662
Bacteroides fragilis: isolation of anaerobic bacteria from clinical specimens, 256
Ball variance in Starr-Edwards prosthetic mitral valve causing acute pulmonary edema (diagnosis by auscultation before onset of symptoms), 20
Bassingthwaighte, J. B., 563
B[ayrd], E. D., 745
Beabout, J. W., 197
Béchamps, G. J., 43
Bence Jones proteinuria (type K) and IgG serum M-component (type L), lymphosarcoma with; bitypic gammopathy, 413
Bernatz, P. E., 81, 229
Bianco, A. J., Jr., 624
Biliary and fecal neutral steroids, nature of; experimental studies in spontaneous-atherosclerosis-susceptible White Carneau pigeon, 729
Biopsy of liver: malignant hepatoma; evaluation of surgical (including needle biopsy) material from 69 cases, 25
Blood: coumarin drug interactions, 249
diagnostic value of muramidase (lysozyme) in acute leukemia and preleukemia, 219
experimental arterial thrombosis; description of method, 388
gingivitis and chronic idiopathic neutropenia; report of two cases, 494
heparin-ascorbic acid antagonism, 140
ileal bypass in treatment of hyperlipidemia; rationale and present status, 229
prevention of experimental arterial thrombosis and platelet adhesiveness by 2,6-bis-(diethanolamino)-4-piperidinopyrimido-[5,4-*d*]-pyrimidine (RA 233), 695
Blood pressure: effects of nitroglycerin on capacitance vessels; mechanism for reduction of left ventricular end-diastolic pressure, 573
Blood vessels: arteriovenous fistulas; review and ten-year experience at Mayo Clinic, 81
Bone disease: vitamin D-resistant rickets; clinical experience with 41 typical familial hypophosphatemic patients and 2 atypical nonfamilial cases, 197
Bone, radioisotope scanning of metastatic lesions of, 755
Bowel: spontaneous perforation of colon in newborn, 103
Bowel resection: intussusception in children, 724; correction, 767
Bowie, E. J. W., 51
Brinton, E. H., 505
Bronchial clearance and cilia; effects of pharmacologic agents and disease, 361

Bronchitis, chronic: spontaneous pneumothorax in emphysema, 481
Brown, A. L., Jr., 150
Burgert, E. O., Jr., 36
Bypass, ileal, in treatment of hyperlipidemia; rationale and present status, 229

Calcaneal osteotomy in treatment of cavovarus foot, 624
Calcium homeostasis, parathyroid hormone, and calcitonin; preliminary report, 125
Campion, B. C., 13, 573
Cancer: chemotherapeutic agents in childhood malignancies, 36
Cancer, inoperable primary lung, perfusion lung scans in patients with, 337
Cancer, kidney: reversible hepatic dysfunction associated with hypernephroma, 161
Capacitance vessels, effects of nitroglycerin on; mechanism for reduction of left ventricular end-diastolic pressure, 573
Carcinoma: radioisotope scanning of metastatic lesions of bone, 755
Carcinoma, liver: malignant hepatoma; evaluation of surgical (including needle biopsy) material from 69 cases, 25
Carcinoma, metastatic thyroid, with hyperthyroidism; two cases with functioning metastatic follicular thyroid carcinoma, 328
Cardia, surgical treatment of reflux esophagitis and stricture associated with permanent incompetence of, 553
Cardiac disease in infancy, 467
Cardiac lesions: hemodynamic and metabolic effects of glucagon in patients with chronic valvular heart disease, 132
Cardiac output: advances in indicator dilution techniques applicable to studies of acutely ill patient, 563
Cardiac surgery: mediastinal masses following corrective surgery for congenital heart disease, 748
Carlo, Ivette A, 729
Carotid, poststenotic, slim sign; spurious internal carotid hypoplasia, 762
Carr, D. T., 189, 337, 409
Cerebral blood vessels: intracranial aneurysms and subarachnoid hemorrhage; subject review for the clinician, 455
Cerebral occlusive disease: poststenotic carotid slim sign; spurious internal carotid hypoplasia, 762
Chemotherapeutic agents in childhood malignancies, 36
Chemotherapy: perfusion lung scans in patients with inoperable primary lung cancer, 337
Chest pain worse with recumbency, 536
Childhood malignancies, chemotherapeutic agents in, 36
Children and adults with cystic fibrosis and other diseases, variations of sweat sodium values in, 768
Children, empyema in; review of Mayo Clinic experience, 43
Children, intussusception in, 724; correction, 767
Childs, D. S., Jr., 328
Ching, E., 724; correction, 767
Ching, L. T., 36, 724; correction, 767
Cholangiocarcinoma: persistent jaundice, 150
Cholesterol: experimental studies in spontaneous-atherosclerosis-susceptible White Carneau pigeon; nature of biliary and fecal neutral steroids, 729.
Chromosomes and abortions, 60
Chronic idiopathic neutropenia and gingivitis; report of two cases, 494
Cigarette smoking: antismoking clinic; report of experience and comparison with published results, 189
Cilia and bronchial clearance; effects of pharmacologic agents and disease, 361
Circulatory studies: advances in indicator dilution techniques applicable to studies of acutely ill patient, 563
Clagett, O. T., 481
Clagett S needle: spontaneous pneumothorax in emphysema, 481
Clinical reviews (program): 605, 680
Clinicopathologic conferences: 150, 536, 662
Clubfoot: calcaneal osteotomy in treatment of cavovarus foot, 624
Code, C. F., 265
Cold virus: experiences in laboratory diagnosis of rhinovirus infections in routine medical practice, 517
Colon, spontaneous perforation of, in newborn, 103
Congenital heart disease, mediastinal masses following corrective surgery for, 748
Congestive heart failure: postinfarction ventricular aneurysm, 13
Connolly, D. C., 20
Cordotomy, percutaneous, recent results with, 689
Coronary artery disease: postinfarction ventricular aneurysm, 13
Coronary atherosclerosis: chest pain worse with recumbency, 536
Corticosteroids: aspiration pneumonitis, 347
Coumarin drug interactions, 249
Coxsackieviruses, group B, as respiratory viruses, 170
Cranial nerves: parasellar syndrome; problems in determining etiology, 617
Culp, O. S., 597
Culture procedure: isolation of anaerobic bacteria from clinical specimens, 256
Cystic fibrosis and other diseases, variations of sweat sodium values in children and adults with, 768
Cytogenetics: chromosomes and abortions, 60

Dahlin, D. C., 25, 103
Danielson, G. K., Jr., 13
Dejerine-Sottas disease, preliminary report of lipid abnormality in nerve and liver in; histologic and lipid studies of sural nerves in inherited hypertrophic neuropathy, 286
Dexamethasone (Decadron): intracranial aneurysms and subarachnoid hemorrhage; subject review for the clinician, 455
Diagnosis of Graves' ophthalmopathy without hyperthyroidism; long-acting thyroid stimulator (LATS) determination as laboratory adjunct, 444
Diagnostic value of muramidase (lysozyme) in acute leukemia and preleukemia, 219
Didisheim, P., 51, 388, 579, 695
Dihydroxyphenylalanine (dopa) in plasma during dopa treatment of patients with Parkinson's disease, 438
Dilution, indicator, techniques applicable to studies of the acutely ill patient, advances in, 563
Dines, D. E., 347, 481
Dipterous larvae: larva of *Scenopinus* sp. (Diptera: Scenopinidae) causing human urogenital myiasis?, 597
Dipyridamole: inhibition of arterial thrombosis and platelet adhesiveness in rat by intravenous 2,4,6-trimorpholinopyrimido-[5,4-d]-pyrimidine (RA 433), 51
Disease, Graves', in Olmsted County, Minnesota, 1935 through 1967, 636
Disease, Parkinson's, metabolism of *L*-dihydroxyphenylalanine by patients with, 645
Disease and pharmacologic agents, effects of; cilia and bronchial clearance, 361
Disease, rheumatic, evolution of steroids and their value in control of, 1
Diurnal sleepiness as measured by pupillography, inheritance of, 426
Divertie, M. B., 361
Dopa: metabolism of *L*-dihydroxyphenylalanine by patients with Parkinson's disease, 645

Dopa treatment of patients with Parkinson's disease, dihydroxyphenylalanine (dopa) in plasma during, 438
Doppler ultrasonic flowmeter for angiography, use of, 720
Dressing, modified Robert Jones, 602
Drug, coumarin, interactions, 249
Drugs: chemotherapeutic agents in childhood malignancies, 36
evolution of steroids and their value in control of rheumatic disease, 1
in vitro susceptibility of gram-negative bacilli to gentamicin, 146
inhibition of arterial thrombosis and platelet adhesiveness in rat by intravenous 2,4,6-trimorpholinopyrimido-[5,4-d]-pyrimidine (RA 433), 51
Du Shane, J. W., 103
Duval, D. L., 388, 579
Dyck, P. J., 286

Editorial preface, 745
Electrical stimulation: experimental arterial thrombosis; description of method, 388
Electrode sites, reference, in determination of potential differences across gastroesophageal mucosal junction, 265
Electron microscopy: evolution and content of vacuoles in primary hypokalemic periodic paralysis, 774
Electron microscopy, locating motor end plates for, 450
Ellefson, R. D., 286
Ellis, F. H., Jr., 20
Elveback, Lila R., 586, 636, 657, 700
Emphysema, spontaneous pneumothorax in, 481
Empyema in children; review of Mayo Clinic experience, 43
End plates, motor, for electron microscopy, locating, 450
Endarterectomy: poststenotic carotid slim sign; spurious internal carotid hypoplasia, 762
Endocardial fibroelastosis: cardiac disease in infancy, 467
Endocrine clinics: 328, 396
Endocrine disease: subacute (granulomatous) thyroiditis in Olmsted County, Minnesota, 396
Engel, A. G., 450, 774
Epidemiologic program: Graves' disease in Olmsted County, Minnesota, 1935 through 1967, 636
Hashimoto's thyroiditis in Olmsted County, Minnesota, 1935 through 1967, 586
subacute (granulomatous) thyroiditis in Olmsted County, Minnesota, 396
Esophagitis, reflux, and stricture associated with permanent incompetence of cardia, surgical treatment of, 553
Ethanol, glyceryl, guaiacolate, and monoamine oxidase inhibitors, effects of, on experimental arterial thrombosis, 579
Euthyroid patients: diagnosis of Graves' ophthalmopathy without hyperthyroidism; long-acting thyroid stimulator (LATS) determination as laboratory adjunct, 444
Evolution and content of vacuoles in primary hypokalemic periodic paralysis, 774
Evolution of steroids and their value in control of rheumatic disease, 1
Exophthalmos: ophthalmopathy of Graves' disease treated by removal of roof, lateral walls, and lateral sphenoid ridge; review of 46 cases, 488
Experimental arterial thrombosis; description of method, 388
Experimental papillary muscle damage on mitral valve closure in intact anesthetized dogs, effect of, 275
Experimental studies in spontaneous-atherosclerosis-susceptible White Carneau pigeon; nature of biliary and fecal neutral steroids, 729
Familial disorder: inheritance of diurnal sleepiness as measured by pupillography, 426
Fecal and biliary neutral steroids, nature of; experimental studies in spontaneous-atherosclerosis-susceptible White Carneau pigeon, 729
Feldt, R. H., 748
Fetus: abortion; crime or privilege?, 510
Fistulas, arteriovenous; review and ten-year experience at Mayo Clinic, 81
Flock, Eunice V., 140
Flowmeter, Doppler ultrasonic, for angiography, use of, 720
Follicular thyroid carcinoma, functioning metastatic, two cases with; metastatic thyroid carcinoma with hyperthyroidism, 328
Fontana, R. S., 189
Foot, cavovarus, calcaneal osteotomy in treatment of, 624
Frye, R. L., 132, 573
Furszyfer, J., 396, 586, 636

Gammopathy, bitypic; lymphosarcoma with Bence Jones proteinuria (type K) and IgG serum M-component (type L), 413
Gastroesophageal mucosal junction, reference electrode sites in determination of potential difference across, 265
Gastroesophageal sphincter: surgical treatment of reflux esophagitis and stricture associated with permanent incompetence of cardia, 553
Genetics: coumarin drug interactions, 249
Gentamicin, in vitro susceptibility of gram-negative bacilli to, 146
Gharib, H., 444
Gingivitis and chronic idiopathic neutropenia; report of two cases, 494
Giuliani, E. R., 13
Glucagon, hemodynamic and metabolic effects of, in patients with chronic valvular heart disease, 132
Glucose, pleural-fluid, in systemic lupus erythematosus, 409
Glyceryl guaiacolate, monoamine oxidase inhibitors, and ethanol, effects of, on experimental arterial thrombosis, 579
Goiter: Graves' disease in Olmsted County, Minnesota, 1935 through 1967, 636
Hashimoto's thyroiditis in Olmsted County, Minnesota, 1935 through 1967, 586
Gomes, M. M. R., 81, 229
Gonadotropin: procedure for concentrating urine for use with immunologic test for pregnancy, 114
Gram-negative bacilli, in vitro susceptibility of, to gentamicin, 146
Gram-positive bacilli: isolation of anaerobic bacteria from clinical specimens, 256
Grantham, R. N., 265
Granulomatous (subacute) thyroiditis in Olmsted County, Minnesota, 396
Graves' disease in Olmsted County, Minnesota, 1935 through 1967, 636
Graves' disease, ophthalmopathy of, treated by removal of roof, lateral walls, and lateral sphenoid ridge; review of 46 cases, 488
Graves' ophthalmopathy without hyperthyroidism, diagnosis of; long-acting thyroid stimulator (LATS) determination as laboratory adjunct, 444
Gravindex slide test: procedure for concentrating urine for use with immunologic test for pregnancy, 114
Greenberg, B. H., 132
Gregg, J. A., 161
Group B coxsackieviruses as respiratory viruses, 170
Gunnlaugsson, G. H., 374, 748
Gynecology of childhood: hydrocolpos; report of two cases, 505

Hable, Kathleen A., 170, 177
Hannaford, J. M., 510
Hanson, Caroline, 189

Harrison, C. E., Jr., 20, 413
Hashimoto's thyroiditis in Olmsted County, Minnesota, 1935 through 1967, 586
Heart: ball variance in Starr-Edwards prosthetic mitral valve causing acute pulmonary edema (diagnosis by auscultation before onset of symptoms), 20
cardiac disease in infancy, 467
chest pain worse with recumbency, 536
effect of experimental papillary muscle damage on mitral valve closure in intact anesthetized dogs, 275
postinfarction ventricular aneurysm, 13
rheumatoid arthritis and papilledema, 662
Heart disease, chronic valvular, hemodynamic and metabolic effects of glucagon in patients with, 132
Heart disease, congenital, mediastinal masses following corrective surgery for, 748
Heart rate: effects of nitroglycerin on capacitance vessels; mechanism for reduction of left ventricular end-diastolic pressure, 573
Hematologic disease: gingivitis and chronic idiopathic neutropenia; report of two cases, 494
Hemigastrectomy and vagotomy: surgical treatment of reflux esophagitis and stricture associated with permanent incompetence of cardia, 553
Hemodynamic and metabolic effects of glucagon in patients with chronic valvular heart disease, 132
Hemorrhage, subarachnoid, and intracranial aneurysms; subject review for the clinician, 455
Heparin-ascorbic acid antagonism, 140
Hepatic duct: persistent jaundice, 150
Hepatic dysfunction, reversible, associated with hypernephroma, 161
Hepatoma, malignant; evaluation of surgical (including needle biopsy) material from 69 cases, 25
Hepper, N. G. G., 189
Hermans, P. E., 527
Herrmann, E. C., Jr., 170, 177, 517
Histologic diagnosis: malignant hepatoma; evaluation of surgical (including needle biopsy) material from 69 cases, 25
Histologic and lipid studies of sural nerves in inherited hypertrophic neuropathy; preliminary report of lipid abnormality in nerve and liver in Dejerine-Sottas disease, 286
Holley, K. E., 467
Holman, C. B., 720, 762
Homeostasis, calcium, parathyroid hormone, and calcitonin; preliminary report, 125
Hughes, R. W., Jr., 150
Hydrocolpos; report of two cases, 505
Hyperlipidemia, ileal bypass in treatment of; rationale and present status, 229
Hypernephroma, reversible hepatic dysfunction associated with, 161
Hyperthyroidism with metastatic thyroid carcinoma; two cases with functioning metastatic follicular thyroid carcinoma, 328
Hypertrophic neuropathy, inherited, histologic and lipid studies of sural nerves in; preliminary report of lipid abnormality in nerve and liver in Dejerine-Sottas disease, 286
Hypokalemic periodic paralysis, evolution and content of vacuoles in primary, 774
Hypophosphatemic patients, 41 typical familial, and 2 atypical nonfamilial cases, clinical experience with; vitamin D-resistant rickets, 197
Hypoplasia, spurious internal carotid; poststenotic carotid slim sign, 762
Hypoxemia: aspiration pneumonitis, 347
Hysterectomy, vaginal, by morcellation, 374

Idiopathic neutropenia, chronic, and gingivitis; report of two cases, 494
Ileal bypass in treatment of hyperlipidemia; rationale and present status, 229
Immunologic test for pregnancy, procedure for concentrating urine for use with, 114
In vitro susceptibility of gram-negative bacilli to gentamicin, 146
In vitro susceptibility of staphylococci and streptococci and influence of agar media on minimum inhibitory concentration, 527
Indicator dilution techniques applicable to studies of the acutely ill patient, advances in, 563
Infancy, cardiac disease in, 467
Infections, rhinovirus, in routine medical practice, experiences in laboratory diagnosis of, 517
Inheritance of diurnal sleepiness as measured by pupillography, 426
Intracranial aneurysms and subarachnoid hemorrhage; subject review for the clinician, 455
Intracranial lesions: parasellar syndrome; problems in determining etiology, 617
Intravenous fluid therapy: subclavian venipuncture; preventable complications, report of two cases, 712
Intravenous 2,4,6-trimorpholinopyrimido-[5,4-d]-pyrimidine (RA 433), inhibition of arterial thrombosis and platelet adhesiveness in rat by, 51
Intussusception in children, 724; correction, 767
Inulin: renal clearance in man of pharmaceuticals containing radioactive iodine; influence of added carrier iodopyracet or o-iodohippurate, 700
Isolation of anaerobic bacteria from clinical specimens, 256

Janes, J. M., 602
Jaundice, persistent, 150
Johnson, C. L., 712
Jones, J. D., 768
Juergens, J. L., 229

Karyotypes: chromosomes and abortions, 60
Kazmier, F. J., 249
Kearns, T. P., 488
Kelalis, P. P., 161
Kenefick, T. P., 488
Kidney: renal clearance in man of pharmaceuticals containing radioactive iodine; influence of added carrier iodopyracet or o-iodohippurate, 700
simultaneous renal clearances of ^{123}I- and ^{131}I-labelled orthoiodohippurate and paraaminohippurate in estimation of effective renal plasma flow in man, 657

Mesenteric thrombi: experimental arterial thrombosis; description of method, 388
Metabolic and hemodynamic effects of glucagon in patients with chronic valvular heart disease, 132
Metabolism of *L*-dihydroxyphenylalanine by patients with Parkinson's disease, 645
Metastatic lesions of bone, radioisotope scanning of, 755
Metastatic thyroid carcinoma with hyperthyroidism; two cases with functioning metastatic follicular thyroid carcinoma, 328
Microcirculation: arteriovenous fistulas; review and ten-year experience at Mayo Clinic, 81
Microscopy, electron, locating motor end plates for, 450
Mills, S. D., 36
Mitral insufficiency: cardiac disease in infancy, 467
Mitral valve closure in intact anesthetized dogs, effect of experimental papillary muscle damage on, 275
Mitral valve, Starr-Edwards prosthetic, ball variance in, causing acute pulmonary edema (diagnosis by auscultation before onset of symptoms), 20
Modified Robert Jones dressing, 602
Moffitt, E. A., 132
Monoamine oxidase inhibitors, glyceryl guaiacolate, and ethanol, effects of, on experimental arterial thrombosis, 579
Morcellation, vaginal hysterectomy by, 374
Motility studies: reference electrode sites in determination of potential difference across gastroesophageal mucosal junction, 265
Motor end plates for electron microscopy, locating, 450
Mucosa: cilia and bronchial clearance; effects of pharmacologic agents and disease, 361
Mucosal junction, gastroesophageal, reference electrode sites in determination of potential difference across, 265
Muenter, M. D., 438, 645
Muramidase (lysozyme), diagnostic value of, in acute leukemia and preleukemia, 219
Muscle: locating motor end plates for electron microscopy, 450
Muscle damage, experimental papillary, on mitral valve closure in intact anesthetized dogs, effect of, 275
Muscle disease: evolution and content of vacuoles in primary hypokalemic periodic paralysis, 774
Myiasis, human urogenital, larva of *Scenopinus* sp. (Diptera: Scenopinidae) causing?, 597
Myocardial infarction: chest pain worse with recumbency, 536
postinfarction ventricular aneurysm, 13
Myocardial substrates: hemodynamic and metabolic effects of glucagon in patients with chronic valvular heart disease, 132

Narcolepsy: inheritance of diurnal sleepiness as measured by pupillography, 426
Nelson, G. E., 624
Nephrectomy: reversible hepatic dysfunction associated with hypernephroma, 161
Neurologic deficit: parasellar syndrome; problems in determining etiology, 617
Neurologic disorder: dihydroxyphenylalanine (dopa) in plasma during dopa treatment of patients with Parkinson's disease, 438
evolution and content of vacuoles in primary hypokalemic periodic paralysis, 774
inheritance of diurnal sleepiness as measured by pupillography, 426
intracranial aneurysms and subarachnoid hemorrhage; subject review for the clinician, 455
metabolism of *L*-dihydroxyphenylalanine by patients with Parkinson's disease, 645
Neuropathy, inherited hypertrophic, histologic and lipid studies of sural nerves in; preliminary report of lipid abnormality in nerve and liver in Dejerine-Sottas disease, 286
Neurovascular diagnosis: use of Doppler ultrasonic flowmeter for angiography, 720
Neutropenia, chronic idiopathic, and gingivitis; report of two cases, 494
Newborn, spontaneous perforation of colon in, 103
